TUESDAY ... SEPTEMBER 4, 1894.

Our State Committee.

In a campaign such as this which is now upon us much of the work of our committees, but it always rests with the State Committee to set the machinery in motion. Accordingly, that body and the meet in consultation with Chairman Bilyson here on Friday, The interests at stake in the pending contest justify the expectation that every committeeman

Invited to attend, and we feel sure that nearly all of them will be here.

The campaign in Virginia this year is going to be very spirited. There will be lots of fun" in it. The Democrats, the Republicans, the Populists, and the Prohibitionists will all have a "say." Orato fical outputs will be the order of the day Our Virginia Democrats are a sober

thoughtful, and patriotic people, and are not easily led off from party allegiance. it what we have to do now is to con Sone victory is certain. Whenever the

that business is reviving and better times oming-we have the right to expect om Democrats the loyalty and devotion for which they have become famous. Let us have a full attendance of com-

mitteemen, and may their plans prosper.

The Democratic convention in the Se

cond District of West Virginia, which last week nominated the Hon. W. L. Wilson by acclamation for re-election to Congress, fermulated a resolution on the tariff question which we suspect the President had formally or substantially consideration of the convention. It is a most remarkable utterance. Considering the abuse which has been heaped upon the heads of Messrs, Brice, Smith, Gorman, &c., for their supposed "treachery to the Democratic party and the influence that was brought to bear upor the President to induce him to sign the existing law, it is rather surprising to read in the resolution above referred to the following candid language;

"We accept, however, the tariff bill as passed in the same spirit in which it was accepted by President Cleveland and the House of Representatives, not as a patriotic fulfilment of the Democratic edges on this subject, but as a vast provement upon the existing condition, id as a measure that will lighten many tariff burdens that now rest heavily upon the people. It is not only a bar-rier against the return of mad protection, but furnishes a vantage ground from which may be better waged fur ther aggressive operations against pro-tected monopolies and governmental fatected monopoles and governmental re-vortism, and we pledge ourselves to carry forward from this vantage ground the great tattle of tariff reform until tariff legislation is freed from all suspi-cion of control by the Sugar Trust and kindred monopolies, until relief is given to an overtaxed people, and until the pledges of the Democratic party are whelly redeemed."

it must, then, be a good tariff after all If Chairman Wilson, the author of the competing bill, finds the Senate bill "a vantage ground from which may be better waged further aggressive oper. tions against protected monopolies and evernmental favoritism," then all other good Democrats can afford to cease their clamor against the new law. The Wilson resolution above quoted employs in one place language almost identical with some used by the President in his Catchings letter. Besides, the relations which exist between the President and Chair man Wilson render it altogether likely that the two had a conference on the subject of the tariff plank which they thought ought to be framed by the Demo crats of Mr. Wilson's own district. Read it again, and see if it is not the adminis tration tariff-creed for the present.

Breckinridge and the Church Vote. In the Lexington (Ky.) District, where Colonel William Cabell Preston Breckin ridge is running for Congress and ele quently preaching the doctrine that mercy and forgiveness should be extended to

penitent sinners, such as he, the Democrats will make their nomination by primary election to be held on the 15th instant. The campaign for the nomination in very exciting, and strange to say many church people are now said to be sup-

porting Breckinridge-having been perstuded by him that it is their duty as Christians to do so. The silver-tongued Colonel in every speech that he makes quotes liberally

from the Old and New Testament both to show that as great sinners as he has been were forgiven and led useful lives thereafter. True, but it does not appear clear to

us that the Colonel has as yet established the fact that he is as penitent as they were. However this may be, it is a singular contest that is going on in that district, and it is especially odd that the elequent old sinner should be fortifying himself with Bible texts and should b able to claim with confidence a considerable share of the church people's vote.

Breckinridge is making a great fight to retain his seat, and there are not a few who think that he will succeed in getting 500.

Sure cure for all MALARIAL diseases, such as Chils, Fever and Ague, Loss of Appetite, Billousness and Dyspeptic Disorders, Paius in the Head, Back, Side, or Limbs, &c. At druggists, my 2

the nomination; but this we can't believe, and we shall be much disappointed in the Kentuckians of the Lexington district if they allow him to triumph.

Desha Breckinridge is his father's righthand man in the canvass. The Colonel is fortunate in having two opponents instead of one-Ex-Speaker of the Kentucky House William C. Owens, of Scott county, and Evan E. Settle, of Owen county. Mr. Owens is the man who was temporary chairman of the last Chicago convention which nominated Mr. Cleveland, and handled that body far better than did Mr. William L. Wilson, who was its president or permanent chairman. It is conceded, we believe, that if Breckinridge is defeated it will be by Owens and not by Settle.

Georgia to Divide on Silver. Georgia is one of the last States who Democrats we had expected to divide on the silver question. We had supposed that that question had been ordered to

Senate. If the people of Georgia are fo

to the sanction of his better judgment.
But, while granting him this perfect liberty of opinion, the people of Georgia will claim as much for themselves, and

Mr. Turner will find that his position on the financial question places him out of touch with the people.

"The issue is clearly drawn. If the people of Georgia want a gold-standard champion to represent Georgia in the United States Senate they will find few abler than Judge Turner; but if they do abler than Judge Turner; but if they do

not, then he has practically eliminated himself from their consideration."

Mr. Turner voted in the House of Re presentatives for making 20 to 1 the coin

age ratio as between gold and silver

He still favors coining silver at its bul-

lion value. Mr. Sherman years ago pro-

posed this compromise. No matter wh

MAGIC WORK OF SCIENCE. The Good Times Are Coming! INGRAM

A Newspaper Man Sees a Strange and Interesting Experiment-Meat Completely Digested in an Open Dish-Views of Colonel J. R. Fellows and Other New Yorkers.

(New York Exchange.) (New York Exchange.)

It is not often that science makes a discovery that demands special investigation on the part of the newspapers. Once in a while it does, however, such as occurred in New York recently.

It has been stated positively that a process has been found whereby food, mixed with a certain ferment became digested before it had even entered the mouth. Certainly if this were true it would mark an

tainly if this were true it would mark an era in the history of civilization, and the writer was delegated to thoroughly investigate and report upon the same.

The first call was made at the office of the company which is now manufacturing the food in question, and I was permitted to inspect the process of manufacture. I found it exceedingly elaborate and scientific and after inspecting it thoroughly I

tific, and after inspecting it thoroughly I was shown the way in which it actually worked. A piece of fresh meat was placed in ar open dish and some of the pre-digested food mixed with it, when the temperature was raised to that of the stomach. Almost immediately there was a change in the color of the meat, next its fibres seemed to separate, and soon it assumed a liquid form, the same as it does in the human stomach after being eaten. The effect, the

change, the entire process, was most wonderful and speedy. "This, as you see, is a demonstration of what can be done," said the manager, what can be done, said the manager, but we prefer that you ascertain just what this food accomplishes with the people who use it. Here is a list of names, and you are at liberty to see them and ascertain just what their opinions may be. Armed with this list the writer began a tour of investigation, with the following

Board of Trustees.

Professor Delaware Easter is here for a day or two. He goes to Spartanburg. S. C., this week to resume his duties at Wofford College.

To-morrow the Keely League will have a reunion at the institute here.

Rev. Charles Preston Scott, pastor of the Baptist church, preached a most admirable sermon last night to a large congregation.

Freedings of the service of pre-digested food, which sets the stomach right, clears the cobwebs from the brain, and sets the machinery of thought and eloquence in motion. There is nothing like Paskola for such a purpose, and I believe it has won more cases before a jury than

you would imagine."
Both Messrs, Howe and Hummel, the
well-known lawy-rs, fully confirmed what
I had already heard. Mr. Howe said: I had already heard. Mr. Howe said:

"Look at me! Feel how firm my arm is! You can see I am in perfect health, and yet I was, not long ago, advised by my doctor to go away for my health. My present condition is the result of the use of Paskola. It is a labor-saving discovery—saves your stomach the labor of digesting food. Try it as I did, and grow fat and jolly."

His partner, Mr. Hummel, said:

'I have seen a number of people try Paskola whose stomachs were so weak that they could digest nothing else, but

Paskola whose stomachs were so weak that they could digest nothing else, but who were able to assimilate this pre-digested food without the slightest difficulty. I have known an adult min wasted to a shadow by indigestion, who gained forty pounds in three months by its use."

Wherever I went the reports were the pounds in three months by its use."

Wherever I went the reports were the same, and I was forced to the inevitable conclusion that a great discovery had certainly been made for building up the system, increasing the strength, and prolonging the life, without any drain or strain upon the digestive organs, which has been the great bane of our American life. Certainly the results of the research prove so.

Any one who desires further information upon the subject should send for a free pamphlet to the Pre-Digested Food Com-pany, 50 Reade street, New York.
